

Introducing A&S Innersprings USA

Welcome at A&S Innersprings USA

A&S Innersprings USA is built on the foundations of two family-owned companies that are leading international players in the world of innersprings: AGRO and Subiñas. Our enormous experience is accompanied by a clear future-oriented approach and solutions that fit in both today and tomorrow's markets.

So if you are searching for top quality products and a business relationship characterized by close cooperation, trust and individual service look no further then.

A&S Innersprings USA – providing unsurpassed sleeping comfort with a personal touch.

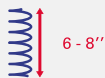

POC

Pocket innersprings

Pocket innersprings are the first choice for meeting the highest demands in sleeping comfort. By placing each spring into an individual pocket of fabric, a highly flexible system is created, with each single spring reacting individually to pressure load. The so-called point elasticity ensures optimum ergonomic adaptation to body weight. When accompanied by A&S quality and service this represents a perfect offer for your premium products!

- Available in both lengthglued and widthglued version as well as Punktoflaex gluing or scrimmed
- Further specification options such as nested and partly nested models, zoned models or models equipped with frames are possible as well
- In addition, we offer perimeter reinforced models such as DualGauge and solutions from our RelaxGuard line with pencil coil edge and our nested edge design (patent pending)

6 - 8''

13 3/4 - 15 1/4 g

2.35 - 2.75''

540 - 760 3/8/Q

This product line has a wide range of potential specification options. We look forward to discussing and agreeing with you the best specification to meet your particular needs.

Bonnell innersprings

Bonnell innersprings are a classic system. Their outstanding strengths are extreme stability and durability, an optimum level of air permeability as well as a wide range of applications. Whether you need a solution for your mattress, upholstery or a base unit for boxspring beds, Bonnell innersprings made by A&S will deliver quality and reliability.

- Available in both Foam Encased (FE) and Full Perimeter (PE) version
- PE version is provided with frames as standard
- Any other models can also be equipped with frames on request

This product line has a wide range of potential specification options. We look forward to discussing and agreeing with you the best specification to meet your particular needs.
